

The Clinton campaign was the principal subject of these leaks and was harmed by these leaks.

We know this because the FBI did not start its counterintelligence investigation of Trump until late July 2016 and we know through this report that a major portion of the investigation was the leaks from New York through October 2016.

At the conclusion of the report, the IG's office lists a series of recommendations that it believes the FBI should follow when it comes to lessons learned from this saga.

One of them is ensuring a uniform system of ensuring that only those with the authority to speak on a topic do so.

This is the first of many steps needed to ensure the errors of this oversight of the FBI and DOJ are not repeated in the future.

HON. DAVID YOUNG

OF IOWA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 21, 2018

Mr. YOUNG of Iowa. Mr. Speaker, I rise today to recognize and congratulate Dylan Linch of Creston Community High School. Dylan was recently honored for outstanding academic achievement at the Sixteenth Annual Governor's Scholar Recognition on April 29, 2018.

This statewide program is sponsored by the Iowa Governor's Office, the Iowa High School Athletic Association and the Iowa Farm Bureau. Each Iowa High School was invited to select a senior with the highest academic ranking. Not only are they academically gifted, but the selected students are often the youth who are successful in extra-curricular activities and community endeavors.

Mr. Speaker, it is a profound honor to represent leaders like Dylan Linch in the United States Congress and it is with great pride that I recognize and applaud him for utilizing his talents to reach his goals. I invite my colleagues in the United States House of Representatives to join me in congratulating Dylan on receiving this esteemed designation, and wishing him the best of luck in all his future endeavors.

CONGRESS OF FUTURE SCIENCE AND TECHNOLOGY LEADERS

HON. KEN BUCK

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 21, 2018

Mr. BUCK. Mr. Speaker, I rise today to recognize two high school students who were chosen by the National Academy of Future Scientists and Technologists to represent the State of Colorado as Delegates at the Congress of Future Science and Technology Leaders. These students are Ryan Bisgard and Colin McKee.

The Congress is an honors-only program for top students in our country who aspire to work in science, technology, engineering, or math (STEM) fields. These students are nominated by their teachers or the Academy based on their leadership ability, academic achievement,

and dedication. This program is designed to inspire young people to go into STEM fields and provides a path, plan, and mentoring resources to help them reach their dreams. During the Congress, the students will have the chance to learn from luminaries of the STEM field including top scientific university deans, leaders from government and the private sector, and even Nobel laureates.

These students' acceptance to this prestigious program is an incredible feat, and it is my honor to rise today and recognize the outstanding accomplishment of these future leaders. Our nation greatly benefits from the achievements of scientists and technologists, and it is important that we continue to inspire younger generations to pursue careers in the STEM fields.

Mr. Speaker, on behalf of the 4th Congressional District of Colorado, I extend my congratulations and best wishes to Ryan Bisgard and Colin McKee.
